Ingredients

• 1 cup split yellow moong dal (mung dal), rinsed well
• 1/2 tsp turmeric powder
• 1/2 tsp red chili powder (adjust to taste)

- 1/2 tsp cumin powder
- 1/2 tsp coriander powder
- 1/4 tsp black pepper powder
- 1/2 tsp amchur (dry mango powder)
- 1/2 tsp chaat masala (optional, low sodium if available)
- 1 tbsp olive oil or cold-pressed canola oil
- 1/4 tsp salt (use low sodium or skip as per dietary restrictions)
- 1 tbsp finely chopped fresh coriander (optional, for garnish)

Instructions

1. Rinse the moong dal thoroughly in several changes of water until the water runs clear. Soak the dal in enough water for 3 hours.
2. After soaking, drain the dal completely and spread it on a clean kitchen towel. Pat dry to remove as much moisture as possible. (This step is important for crispiness.)
3. Preheat your oven to 180°C (350°F). Line a baking tray with parchment paper.
4. In a large bowl, combine the dried moong dal with turmeric, red chili powder, cumin powder, coriander powder, black pepper, amchur, chaat masala (if using), and olive oil. Toss until the dal is evenly coated.
5. Spread the spiced dal in a single layer on the prepared baking tray.
6. Bake in the preheated oven for 25-30 minutes. Stir or shake the tray every 10 minutes to ensure even baking. The dal is done when golden and crisp.
7. Remove from the oven and allow to cool completely. It will continue to crisp up as it cools.
8. Sprinkle with fresh coriander, if desired. Store in an airtight container once fully cooled.
